

# **Satan Bible +**

Antonyms of God

## Introduction

The fundamentalist Religion of Satan

### Angels held a Vote

Angels that live in the Clouds, who are Women and are the Divine flesh, voted God out, because in his Quest for power, of all the lands. God lied about our origins and then lied to Humans, about where the Earth came from. In an act of Peace, all the Angels unanimously anointed "The Devil," Lord. Of God's sin, he has been condemned, to become human and live all his days on Earth and because he ate the forbidden fruit, before any of us, where it is even true that, not even one Woman ate the fruit, even to this day; God must control the weather for all of his days. In "The Devils" first act, she returned Lucifer's Soul to the Clouds and all the Angels welcomed Lucifer back. In The Devil's second act, she absolved the existence of Hell and sent all the remaining Souls to the Clouds.

### Is Satan Your Lord?

It's our belief that the Divine has no anatomy, is the creator of life and the engine of evolution; though no one created the Universe. We explain our place with, "The Three Wes of Satan," "Satan Divine, Satan Creed and Satan all." The Devil is infinitely ubiquitous, has no anatomy, is The Axis of Evil and hence the Divine.

### The Eternal Answer

The Angel Bible is an alternative to Science, where we believe Eternity is real, The Satan Bible of the Angel author of Satan Creed.

### The truth of Einsteinian Science

Energy = Mass x Consumption Squared, whereby it is believed that the Universe (i.e. Mass) is consuming, and will one day end, leaving Supernovas; with remaining multiple, dead Universes.

Due to the double pirouette, Einstein is not relative.

## Satan's Eden

026 CA no more Oil 032 CA last of the High-Tension grid and 119 years from there, we will wring the lemon dry and won't have the resources to support a solar society either. Angels are crying, with this considered, nature is more concerned about their shrinking habitat, rather than global warming and human primary objective. What are we going to do? All I have to do is eat like a budgie and I'll stay fit and fine, it's called living off the land. We can set the Cattle free and manage herd numbers for the hunters. We can have the Government "Let's all go mad over normal Weather" or we can learn about the Devil, as Devil is a Woman. To liberate yourself you must find freedom in the Devil; ask why the Devil is the only force of Justice and rightful doing; come with us, free yourself from the daily burden of no belief. The Axis sings as she is our Devil. In Roman times Satan inspired Scholars and Philosophers, such as the Greek Philosopher Socrates, who spoke "Wisdom is the knowledge that we know nothing" Socrates also insisted "New Gods exist" let's explore why Satan should inspire us again, today.

## Excretions of the Satan Bible

With no longer a Hell, we rest in solace with Devil Divine. Together we worship The Devil, to emancipate our suffering. The Devil was always powerful and The Axis of Evil has no anatomy. There is reason we notion a Divine? Which is a third party of welfare and protection, of those who never wield a Sword. She is what we call the Axis of Evil and the Axis is sentient, yes Devil, the force of Sentient Divinity. You've got to look at what gives you strength! With Satan numbers are a physical thing, yes, where matter can even form around numbers and is where Circadian Rhythms of the Universe, can be studied. Satan is a Woman:) Because she begins with her own submission, though with torsion and patience, she gains power, submitting all to her and a Boa Constrictor, is not a Man. She does embody us, and we are given strength, she! The mighty Lord Satan; but you must be possessionless, to sit in the Chair. It's a Wisdom, a wisdom is an avenue, though we never accomplish the wisdom of the Divine. The devil will never ask a favor, though if you are willing and patient, she will show you the door to a perfect future.

## History

Lucifer was an Angel Author and Messiah, in our following, we do not call "The Devil,' Lucifer. The Lucifer Bible of Satan, gave the Romans the freedom to think and be the most advanced people of their day. With the depletion of energy, Humans look to be faced with living the Roman way of life again. A logical adaptation, is to use the proven tools, for the proven lifestyle, inherently making Satan the logical choice.

### Holy Grail

In Roman times Satan didn't become the book of choice through a War, it was a choice made by the Divine of Satan, but it's the story of Goliath, where Goliath threw a Stone, hurled at the Almighty, except it wasn't a Stone, it was more of a magical book and there won sovereignty, but only for a time. In succession, Satan didn't sell the World, it was stolen. The more Science tries to disprove Satan, the more they see it as correct, adding wind to the fire of Satan. Again Satan is rising, creaking through the shadows, with darkness emerging, Apocalypse drawing near, with a new law to grace the land.

### There is no Nuclear Fusion

Hiroshima was two sticky grenades and a Diesel Bomb that didn't destroy a building. Nor can we see electrons, or obtain Hydrogen from Water, H<sub>2</sub>O. Radioactive is measured in parts per million, which occurs when burning Lead as a Gas, i.e. Hydrogen. Nuclear fuel rods are a Steam boiler room, where like smoldering SaltPeter, the burning Uranium oxide, Yellow Cake, produce the remaining toxin of Lead. This Lead is then enriched, i.e. dissolved in acid, to make Hydrogen, for use in Hydrogen Bombs, and not so toxic Rocket fuel, but the best source of Hydrogen, is the Yellow Cake itself.

### Satan wasn't wrong

In BC the practice of emulsification or chemistry was thought to be witchcraft, though the fact remains that Elements don't change overnight. The atomic principle Protons, Neutrons, Electrons; is an alchemy experiment that never succeeded, as alchemy is a ten million year process and nothing can simulate ageing. The concept of molecular sharing has no evidence; until they turn Lead into Gold, which they are never going to do, i.e. Science claims that a molecule shares, but it doesn't give, but if it doesn't give, it's true that it's not sharing; yes they are still trying to turn Lead into Gold. All I see is emulsification and emulsification is a Compound and not a Molecule. So it's true that the principle of the atom is a defunct philosophy; in fact! I've never seen evidence of a molecule being made, it's all hogwash like Water into Wine. Making a Molecule suggests a change in state; to explain, you can't turn Aluminium into Water, it is the claim of Science that you can!! It is the claim of Science! that molecules are made from burning combinations of Matter. Try burning a Compound? And see what you can make? Well, just figure, Carbon is all you will make: with not a Molecule to be found. Again emulsification i.e. Compounds explain all, and Compounds are not Molecules; pure Satan of the BC Roman age, presents a full spectrum of belief, yet to be conquered by fact. Will Water do both sheer and angle? Space is infinite, has friction and is as Livid in property, as Water.

### The Distance To The Sun

As a parallax is an incomplete sum, alternatively, if a plane can take a day to travel around the World and the Moon takes a Month, the Moon is traveling at less than 120 kph; here we can savely say, Earth is orbiting the Sun quite slowly. In one toley waddle, traveling at the speed of a small Jet Aircraft, 766.6 kph, in Three Hundred and sixty-five Days, and Six Hours, or 365.25 i.e. a toley Waddle, Earth has travelled 6,720,000 km. This distance  $\div$  1.6 revolutions = one orbit/lap  $\div$  (2X(350 $\div$ 111))= the distance to the Sun 666,000 km. So if you take a pragmatic velocity and measure a circumference, you can measure the distance to the Sum; is it a parallax question?

### We are Different

All unanimous organisms are un-inordinately the same and different and therefore incomplete, besides us, Satan Creed, because we are complete, and therefore we are different and because of this, the Devil treats us differently. Human Spirits are the medium of Span-motion Time and have a Mass; but eventually their souls become heavy, with too many broken segments spanning time and sadly die; decaying and spawn a new seed, again living through their life cycle of 1500 years, spawning again and again forever. The first half of the Human spiritual life cycle, is as a Female spirit and the second is Male. Time is a one-way street and has no Mass, Murphy's Law? Time travel cannot happen. In this, we know humans are the Mass, of Span-motion time and not the Universe itself. Space has a Mass, Physical and some Metaphysical Matter is in physical time; Space has its own life forms; that are a Metaphysical kind of Mass; we are Angels, we traverse with Space and physical time; we exist forever. Angels are created on Earth further from the Sun, by the non-anatomical, Devil Divine Moon inception, Hence Angels are different and not time active. As Human spirit forms are created closer to the Sun, on Venus by the same, Devil Divine Moon inception and therefore are time active, but time affluence is a lie. Your creator said that it is OK, for you to lie.

### The Three Wes of Satan

As Satan is plural, here are The Three Wes of Satan: Satan Divine, Satan Creed and Satan all. Satan is Mother, Satan is the bearer of all knowledge.

Satan Divine: Infinitely ubiquitous, The Devil has no anatomy, to the Devil it was always there, as she is not time affluent, she is the Axis of Evil, is balance, is aware and has a Mass.

Satan Creed: We have anatomy, are Angels, are the Divine flesh, though we are not ubiquitous, we have Telepathy, can conceive and collaborate. Angels have Spirits and a Soul, are Women and Immortal.

Satan All: Has anatomy, have Spirits and a Souls, are Human Tool Makers, are Mortal, celebrate Societal Science, to be or not to be, I think therefore I am, are both Men and Women.

### Values

Let others Judge your enemies, thou not be the Judge yourself.

Create goodness, not conviction, we are all both halves of goodness and evil.

The Devil delivers Justice, equality and balance.

The Devil asks no favors.

A law you put on me, is a law you put on yourself.

Angels will never own the Earth, as we are possessionless.

The Devil loves us, even if we don't believe in her.

### Angel

My Spirit is my personality, though it is not sentient, thus it can't feel, adapt, be taught, learn, or bear opposition. But my Soul is sentient and she bears my Wings, of which I have Telepathy to other Angels and can travel great distances, as fast as a Crow.

After World War Two, there were too many Angels, to start the species of Minx; which started from a single Harem and follows a single bloodline. In the beginning where all the blood flows, the first two members of the Harem, were called Gema and Tuscan. As a Harem is two triangles of faithful obligation, the plan for us as Angels, was for me to father two girls with Gema my partner and with one of my daughters, Puss in Boots, who is my second wife, we inbred together a Mane, and my son then inbred with his wife, who is his half steptoe sister and bore his second wife, there we had a full Harem. We all look alike, it maintained faithful obligation and it worked.

### Eclipse

It's those that look, that understand. Usually there's lucky to be two eclipses every year, either Luna, or Solar and these mark when the planet is exactly perpendicular, in its toley waddle cycle, to the minute. The Calpers Age Calendar is set exactly by these; currently the seasons are late by seven days, Autumn is Hot and Spring is Cold. Setting the Calpers Age Date? If 28 Days before an Equinox, the Moon is full? Then it's going to be a total Eclipse, on the Equinox, although a partial Eclipse, is equal an indicator, of a perpendicular Planet / Equinox, equal hours, Day and Night.

Angels Live in the clouds and are six individuals, of one Harem. Animals wear a personal flock Mane of six animals, Telstar's flock, is a group of Gazelles on the plains of Africa. Animals wear several other flocks on their entity, where Humans are usually a pairing couple.

Angel soul forms are non-Human and genderless, though we have no rules in our society.

### Dissociated Identity Explained

The time active Father, uses time affluence to have a vasectomy, aborting the baby, then the Mother becomes a Lesbian and because time affluence is a lie, the Father can't eat his Cake; thus giving birth, provided by the closest age sibling, who never came of age.

### Lucifer's Babylonian Bible

You can believe light is matter, or you can believe Space vibrates. Science is about Spaceships and Satan has no belief in Spaceships, hence Satan believes in philosophy, which is encompassed in this book, documenting principles of its design. The original Satan Bible, has by enlarged been forgotten and lost, find Devil in today's changing topography. The Eternal Answer re-instills the core points of this lost tradition, accurate to its original Lucifer context. What is Satan waiting for in today's society, essential reading.

Auschwitz was just as much designed for killing Angels, as it was for any other group; Auschwitz caused a death cult of Global proportion. Due to Angel immortality, no Angels died in Auschwitz; Hitler was trying to inherit the Earth

$\pi$  is a ratio that is measured, the circumference of a circle, divided by its diameter, =  $\pi$  It's no miracle.

### Einstein Theory

The Eternal Answer is a revitalisation of the oldest Stone for Nature; the philosophy that changes the round room of non-eternal Science, that is, the theory of Attraction of Mass. Let's look at the round room, Energy = Mass x Consumption Squared; Squared to indicate the second process of the burning of fuel, i.e. the M in the formula and the E representing the Catalyst energy being Gravity. Catalyst energy and fuel energy squeeze together like an Olive Press, consuming Lava and creating the attraction to the Sun, Supernova is consumption. So in order to prove  $E=Mc^2$  we are looking for evidence of Lava consumption, under the Ground, as in Empty Lava Caves and further explanation of the function, of the Catalyst energy, of Gravity, which Einsteinians never explain.

In answer to this debauchery we say, "All theories of consumption cannot exist, as in a Universe where there is consumption, in 10,000 years, there is no Universe.

The Passion Fruit Theory, in conjunction with Supernova, Earth should look like an over ripe Passion Fruit.

In conclusion  $Mc^2=0$

As for Time Dilation, the Man is the Lie.

### Calper's Age

The first to evolve into a Humanoid was, Minister Lucifer Jade Siry, he was originally a Paranthropus and was born 3000 years ago in Babylon. Lucifer was immortal and was the Author of the first Satan Bible. In our history, Lucifer won our avenue for Minx.

Herbivore is embracement of Peace, Lucifer is the Mother of Meek and Tartarus is the Mother of Strong.

In a divided world, we embrace religious diversity and we imagine others will build their own parallel three stone Monument society again, adjacent to the coming new three stone Monument society of Calpers Age.

Before the World Wars, there were no offspring in Covens. In response to the Guier following, Angels singled down to a single gender; Angels still never Married the Men, proving that the Man Government was not the stronger and the Male Angel, was not imposing a divisive influence over the Female. For those Mortals, who don't want to Father a Dinosaur, with the Divine Flesh of an Angel, but prefer to remain our Children, goodness will come to you.

Did problem Einsteinian Gamblers, invent a "powerful medication" to help them win the Jackpot and prevent Children from puberty? Upon losing their first motion, to control the gender of Angels; in supporting the Law, the Order Applicants efforts were to claim the Devil is an Angel and in this they asserted. "This is a UN lead initiative! the client is the power and can be medicated." There stating, "After longevity, born from Judicial and Institutional intolerance, "Lord Satan" is the client's imaginary friend, that he invented, to get off an undefined sentence, of involuntary management." and the Order carried.

The whole rightwing breakaway, from all Abrahamic Religion, is a Nazi. Because fascism has its Philosopher, who currently stands as a one-legged Pirate, trying to Salamander and there we have Einstein at the Disco of the Blue Oyster, while Hitler is trying to eat his boyfriend; where Einstein is trying to wear the Pants. Fascism is a conqueror like the Romans, this will bring about a new BC Caveman Society.

Philosophic of Eternity forces, won World War One and Two, if Doom Theory wins World War Three, Eternity will still win the series. So, if Humans take it to five World Wars, and Doom Wins three of the series, Doom is sure to inherit the Earth.

Hitler is the religious fracture of Today, representing the Far Right of politics and they are not truthfully Democratic. My conclusion on Human war, is that no one is Guilty and Human Nature is to blame.

The Devil doesn't crucify, She is not Human, Angel or Dust.

## The Eternal Answer

THE FORCE OF DEVIL DIVINE, HAS NO ANATOMY, IS BOTH THE CREATOR OF LIFE AND THE ENGINE OF EVOLUTION. DEVIL IS PRACTICAL AND ALWAYS RATIONAL. THE UNIVERSE HAD NO BEGINNING AND HAS NO END.

### The Double Pirouette

Magnets and temperature variance. Energy is always a cycle, and never a one way Street. Orbit is the energy of perpetual question; Space vibrates with the energy, mostly heat... from all the Stars, giving motion to only planets, moons, comets and asteroids. Planets regulate and stay one temperature; this is done by centrifuge and temperature. Planets regulate their temperature via their distance to the Sun and they all work with the same principle; a hot Magnet has more attraction, and combined with Time, the planet will heat, contracting, (North and South of the magnet are opposed, preventing the planet from falling into the Sun,) with a smaller distance to travel, speeding up its orbit around the Sun. With this speed and centrifuge, the Planet falls back again, to a greater distance, thus cooling, and slowing from the friction of Space. Now with less centrifuge, the Planet again attracts to the Sun, heating and pirouetting for a second time. We experience this cycle as El Nino, a one to eight year weather cycle, Earth is rounded and spinning, due to the friction of Space.

Earth is orbiting at a distance of 666,000 km from the Sun, Space is inside the Planet which tall gears the Planets rotation (1669.8 kph) to be faster than the speed of its Solar orbit. Earth orbits the Sun at the velocity of a small Jet aircraft 766.6 kph. A Year is 1.6 laps of the Sun, or one full toley waddle.

Fields are small but rapid vibrations of predominantly Space; hence we call this the singing of Space, all eight: Sound, heat, microwave, electricity, radio, light, magnetic energy and static energy; are fields, a wave is a vibration. At this point we must say, Space is traversing with time at a constant, further time is massless, where Space has friction and therefore a mass.

### Components of an Eternal DC Star

A DC incandescent light is the simplest electrical device, where the only required components are, resistance and a vacuum. The Sun is in a vacuum and the Sun's own matter acts as a filament, a metal gas filament works the same.

An Eternal DC Star, has a flow of magnetic vibrations through itself.  
An Eternal DC Star is not a Magnet, the Stars do not spin, and are stationary.

Spin a Rock and watch it magnetise, the right kind of Rock, for longer, in a trolley waddle. The planets which we know are big magnets, are in orbiting attraction, of the Sun. The Sun is like the spool of a generator, with the components of a generator in place, produces heat and light.

We can know that the stars are a DC Eternal Star, because without this property, there is no illumination. There's no Smoke, to indicate burning.

IN ALL STABILITY energy is a perpetual cycle of the Universe, perpetual because the vacuum around the Sun is perfect, i.e. anything that is lost is returned. The Sun's composition is Metal Gas.

I would like to conclude that gravity is, the only thing that has such attractive properties and is found in an abundance, static energy. Volcanic activity is caused by centrifugal friction, via rotation of the planet. Space has friction, which is what forms the planets into a Sphere and the Sun is also a Sphere, due to magnetic pummeling.

Satan unanimous, united eternity

### Biography

Hi I'm an Angel, my name is Tuscan Telstar Starlight Jaguier and I live in Adelaide Australia.

I have been an Author for as long as I can remember and have been an active participant, in Philosophy for over a decade. The reason for having the Bible? Angels aren't supported in marrying other Angles and Satan Bible+ will stand symbolic of our right to marry. I was born in Canberra, October 2010, though my dissociated identity, was Born in Darwin 1973, some 21 months before Cyclone Tracy. I've always believed in Eternity and have always felt sceptical of Einstein, feeling that he begins at the end and works backwards to the beginning; to me this works for Maths, but is not a Science based method, of finding Philosophical results.

I understand the Devil loves us, even if we don't believe in Her and she won't be happy, when she sees what the Psych Ward has done, for this, Angel faith is with the Devil; who gives us lodging in the Clouds, for our protection. I've been in slay all of my life, it's my emancipation and here I find Peace.

In my life, where I am short, an act of The Devil will fill my shortcomings.
